

*Fraters, the chapter is woefully young, inexperienced and down to 13 actives....
.... Not nearly enough to sustain the new house we built for them in 2005.*

SAVE THE HOUSE!!!

Without Your Help, We May Soon Lose Epsilon Sigma's Chapter House (and our chapter).

Help the Board of Advisors buy time to rebuild an adequate & well trained quality membership base so that we survive this tough time

If 100 Epsilon Sigma alums or friends step up and kick in \$50 apiece (or whatever amount you can) each month for the next few months (no longer than Sept. '08 thru May '09) your board, with the help of interested alums and the international fraternity, will have time to do whatever it takes to turn the chapter around and keep the bank from taking our new house!!!!

Your donations will go directly to house operations. It will not be used for chapter parties or other undergrad activities We won't ask you to continue contributing any longer than May '09.

Why Now A Problem? Starting in fall 2007, we returned with a smaller and rather young group that had not been well trained by their predecessors. They failed to grasp the importance of recruitment or understand their obligations. This year, even fewer return and they are only now realizing the trouble they are in.

So What Is Being Done To Solve The Problem? Your board is now looking at all options. Under consideration, among other things, is reevaluating each individual undergrad, keeping only the cream, and recolonizing the chapter, and/or renting rooms to non-tekes. We are also enlisting the help of the international fraternity, recruiting more alums to help train and motivate, and the board is closely monitoring the day-to-day goings on.

Does The Board Believe That Things Can Turn Around Before May '09? YES!!! We would not make this plea if we did not think a good fall and spring rush, coupled with intense training of officers, existing members and new members would pull us through.

YES, I'll Help Save the Epsilon Sigma Chapter House & Chapter!
